DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 are rejected under 35 U.S.C. 102(e) as being anticipated by Plahte et al. (US 6,993,360 B2, hereinafter "Plahte").

Regarding claims 1, 4, Plahte discloses a system for connecting a portable information equipment (PDA/Smartphone 108; col. 7, lines 61-66) and an extension telephone (PBX telephone 161), comprising:

extension telephone connecting means (MBX server 110 connects PDA/Smartphone 108 to PBX 102) after authentication through a virtual private network (col. 1, lines 37-38; col. 6, lines 49-52); and

Voice over Internet Protocol connecting means (VoIP protocol is used to carry voice traffic over the data connection; col. 3, lines 51-60).

Regarding claims 2, 5, mobile communication costs include negotiated rates (col. 6, line 49), use of project codes to allocate costs to clients (col. 6, lines 53-56), lower telecommunications prices available to PBX-connected telephones (col. 20, lines 17-20).

Regarding claim 3, 6, PDA/Smartphone 108 can access the corporate directory, customer relations management database and native contact list (col. 17, lines 18-23).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bicker shows the connection of a mobile device with a VoIP Server via a VPN server. Mukherjee et al. show on-demand charging for a VPN service to a mobile user.
